Present by

A Powerful Talk Event, A Platform Of Ideas

Seminar Construction Evolution 2019 is an event that deliver latest updates related to Malaysian construction industry practice and technology. A truly fresh information sharing across the industrial spectrum, including innovations in construction, sustainability, industrial revolution and more. We would welcome industry practitioners & academicians to gather in this remarkably unique seminar.

Let's further engage with our audience locally, globally & digitally!

Great opportunity for Contractors, Engineers, Architects, Managers, Technicians, Supervisors, Surveyors, Technologists & Academicians.

Objectives

EXCELLENCE PRACTICE

To provide a platform for industry players towards excellence by showcasing better practices in project implementation.

CONTINUOUS LEARN

Leaders and professionals to exchange vision and expertise in constructions sectors through knowledge sharing.

CONNECTIONS & NETWORK

A great opportunity to meet up with multiple practitioners from various fields and explore lucrative opportunities.

Topics

IBS & Current Implementation

"Both construction authorities and industry players keep abreast with the latest cutting-edge technologies and innovations to maintain a competitive edge."

Technologist & Technician

"Providing spaces for technologists and those in the technical and vocational fields to receive proper training as they are required to face the fourth industrial revolution."

3D Printing & Construction

"Printed building offers great potential for creating unconventional, hybrid-built forms. Keen to explore the enormous opportunities of creating new built forms and hybrid construction systems using printed technology."

BIM & Industry 4.0

"The adoption of innovations and new technologies is a necessity for companies to remain competitive and this change needs to happen quickly and at scale."

IoT for Construction Industry

"In its simplistic form, the internet of things is the connection of devices through the internet. Connected devices on job sites provide number benefits to the project, the companies, and most of all the employees."

Drone & Orthophotography

"The presence of drones in construction means significant changes within the industry. Drones have already begun changing the way the construction industry operates, and those changes will have continued and lasting effects."

Programme Tentative

- 0830** Arrival & registration
- 0900** Opening & Welcoming Remarks
- 0930** Session 1
BIM & Industry 4.0
by Ir Shahrul Nizar Shaari
Founder of Innovacia
- 1000** Session 2
IoT for Construction Industry
by Dr Mazlan Abbas
CEO of Favoriot
- 1040** Morning Break
- 1115** EvolusiBina's Commercial 1
Smart City Reporting Tools
by Dr Gopinath Rao
CTO of Favoriot
- 1145** Session 3
Technologist & Technician
by Malaysia Board of Technologists
- 1230** EvolusiBina's Commercial 2
Drone & Orthophotography
by Aspati Multimedia
- 1300** Lunch Break
- 1400** Session 4
IBS & Current Implementation
by Rozainah Ibrahim
General Manager of VCI IBS Sdn Bhd
- 1500** Tea Break
- 1530** Session 5
3D Printing & Construction
by Pebblereka & ORS Tech
- 1630** Closing
